New Release
Of Speech
Recognition
Software

Over 800
Custom
Voice
Commands

High Quality
USB Audio
Device
Included

the integration of accurate speech recognition software with unique voice commands for the applications YOU use

Ultimate Access™ version 6 provides an enhanced series of additional **Dragon Professional Individual 15** voice commands for an even wider range of applications*. These are grouped into **Voice Command Packs**. Included in the latest release of Ultimate Access™ version 6 are the following Command Packs:

Communication Pack

Make and receive **Skype** Internet telephone calls using voice commands, send Instant messages by dictating into **Windows Messenger** & modify the fonts in **Internet Explorer**

Assistive Technology Pack

Voice operate **Read & Write Gold**, control all options within **ZoomText Magnifier/Reader** and create mind maps, all by the power of your voice, in **Mind Manager** and **Spark Space**

Accessibility Pack

Control the built-in **accessibility options** in Windows by voice. 'Sticky Keys', 'Filter Keys' and 'Mouse keys' can be turned on/off with a single voice command

Time & Date Pack

Insert the **current date** or the **current time** into any application (that can receive text input) by voice - have the current date or time displayed on the screen and read back to you

Leisure Pack

Take a break and play **Windows Solitaire** or **Minesweeper** or listen to music and watch video in **Windows Media Player** using unique voice commands

Productivity Pack

Review your PDF documents in **Nuance PDF Reader**, scan in and store hard copy documents into **Paperport**, convert documents to PDF using **PDF Professional** and convert scanned documents into editable Word documents using **Omnipage...all by voice!**

Say-It Your Way™ Technology

Change the name of built-in voice commands to a phrase that *you want*. i.e. change "Bold That" to a phrase that you choose - **Don't be dictated to... "Say-It Your Way"™**

* Compared to Ultimate Access version 5

Ultimate Access™ voice commands
(created by Freedom of Speech Ltd)

Noise cancelling headset microphone (giving
you highly accurate text & command recognition)

Ultimate Access Quick start guide

What training is required?

We normally recommend a minimum of 1 day on-site training by a **Dragon Certified Instructor**. This is to enable users to operate **Ultimate Access™** effectively in the programs they use. Some users may require additional training which is dependant on a number of factors i.e. the amount of applications being used. Please contact us for further advice on this.

Dragon Certified Instructors have to pass stringent training requirements to ensure that they have both the knowledge of the speech recognition software and also the experience to train people with a variety of disabilities.

What does it cost?

Ultimate Access™ v6 prices are available on request from Freedom of Speech Ltd (contact details below).

System Requirements

Processor:

Minimum 2.2 GHz Intel Dual Core™ or equivalent AMD processor.
