

ZoomText Magnifier 10

ZoomText Magnifier is an advanced screen magnification program that enlarges and enhances everything on the computer screen, making your computer easier to see and use.

ZoomText 10 Magnifier features include:

ZoomText Camera ** New in Version 10

The new ZoomText Camera feature allows you to use any high-definition (HD) webcam to view and magnify printed items and other objects right on your computer screen—including bills, magazines, photographs, medicine labels, craft items and more. Simple controls allow you to quickly zoom in and out, choose between full and high contrast colors, and switch between Full and Split screen views where you can see the camera image and your Windows desktop at the same time.

ZoomText Enhanced Web Finder ** New in Version 10

ZoomText's Enhanced Web Finder allows you to search webpages for specific words or phrases, or skim through pages to find items of interest. As you navigate through the page each item you come to is highlighted and announced. When an item of interest is found you can have Web Finder start reading aloud from that location. If the item is a link to another page you can have Web Finder execute the link and continue your search on the new page.

Full Windows Logon Support (with ZoomText Logon UI) ** New in Version 10

ZoomText's logon support is now available in Windows 7, Windows Vista and Windows XP. ZoomText's logon support provides essential magnification and screen reading features when logging into Windows.

Flexible Magnification

Full range of magnification levels up to 36x. Levels include: 1x to 8x in steps of 1, 10x to 16x in steps of 2, 20x to 36x in steps of 4, and fractional powers of 1.25x, 1.5x, 1.75x and 2.5x.

Powerful Zoom Windows

8 different zoom windows allow you to choose which part of the screen is magnified.

Font Enhancements

xFont technology displays high-definition text that's easy to read at all magnification levels. Smooth, bold and condense settings allow you to fine-tune the thickness and spacing of text for added legibility.

Dual Monitor Support

Use two monitors to expand your magnified viewing area, or use the second monitor to share a magnified or unmagnified view of your desktop with another person or group.

Enhanced Screen Colors

Innovative color controls improve screen clarity and reduce eyestrain. Special effects include color dyes, two-color modes and replacement of problem colors.

Visible Pointers and Cursors

Size and color enhancements make it easy to see the mouse pointer. Special locators make it easier to follow the mouse pointer and text cursor as they move across the screen.

Focus Enhancements

Makes it easy to locate and follow the control focus when you navigate through application menus, dialogs and other application controls.

Smooth Navigation

Navigating your applications and scrolling the view is always smooth and comfortable. Constrained mouse movement allows you to examine rows and columns, and keeps you within the active window.

Desktop Finder

Desktop Finder helps you find and launch programs and documents on your desktop, system tray and quick launch bar.

Text Finder

Text Finder helps you locate words, phrases and topics of interest in documents, web pages, and application windows.

Application Settings

Save unique settings for each application that you use. As you switch applications, ZoomText automatically loads the desired **settings**.

Special Application Support

Built-in support for popular applications – including OpenOffice, Microsoft Office (Word, Excel, Outlook), Adobe Acrobat X, Adobe Reader X, Firefox, iTunes and Java – allow you to navigate your documents with 100% accuracy.

ZoomText Magnifier/Reader 10

ZoomText Magnifier/Reader is a fully integrated magnification and screen reading program that enlarges, enhances and reads aloud everything on the computer screen.

ZoomText 10 Magnifier/Reader includes all the features of ZoomText Magnifier, plus:

ZoomText Recorder ** New in Version 10

The ZoomText Recorder allows you to turn text from documents, webpages, email, etc. into audio recordings that you can transfer to on your mobile device and listen to at your convenience. Recordings can be saved directly to a ZoomText Recorder playlist in iTunes or Windows Media Player and automatically synced to your mobile device.

ZoomText Background Reader ** New in Version 10

ZoomText's Background Reader allows you to listen to documents, webpages, email, etc. while you simultaneously perform other tasks. You simply select the text you want to listen to and press the Background

Reader hotkey, Background Reader begins reading the text while you go about other work. At any time you can pause and resume reading and skim forward and backward by word or sentence.

'NeoSpeech' Synthesizer Voices

NeoSpeech provides human-sounding male and female voices that are closer to the real thing than ever before (English only). ZoomText also includes classic TruVoice, ViaVoice and Microsoft speech synthesizers.

Complete Screen Reading

ZoomText automatically speaks all program controls, including menus, dialogs, list views and messages. Three verbosity levels give you complete control over the amount of information spoken.

Automatic Document Reading

ZoomText's AppReader automatically reads documents, web pages and email within the parent application. ZoomText's DocReader reads documents in a special environment where text is reformatted for easier viewing.

Reading Zones

Reading Zones allow you to instantly see and hear selected locations in your applications. Define up to 10 zones per application that you can trigger via pop-up menu or keyboard commands.

Full Internet Accessibility

ZoomText reads any web page, in the proper reading order. You can read automatically or manually navigate by word, line, sentence and paragraph.

Text Navigation

Navigation keys make it easy to read while creating and editing documents. With simple commands you can read by character, word, line, sentence and paragraph, even while selecting text.

Typing Echo

Each key or word that you type is automatically spoken. You can choose to have all keys spoken or only selected groups of keys.

Mouse Echo

Mouse echo automatically reads text that you point to. Single words or complete lines of text are spoken instantly or after hovering briefly.

SpeakIt Tool

The SpeakIt tool allows you to read selected areas of the screen by clicking or dragging the mouse.

Special Application Support

Built-in support for popular applications – including OpenOffice, Microsoft Office (Word, Excel, Outlook), Adobe Acrobat X, Adobe Reader X, Firefox, iTunes and Java – allow you to read and navigate your documents with 100% accuracy.
